# CONTENTS

1	Download the Canon Printer Drivers In the latest Canon model	3
2	Complete Installation Steps for Ij.start.canon software	5
3	Canon IJ Setup from Canon.com/ijsetup on Mac	7

[Canon.com/ijsetup](http://Canon.com/ijsetup) - Here you can get all the steps for hardware setup, network configuration and printer driver installation.

## DOWNLOAD THE CANON PRINTER DRIVERS IN THE LATEST CANON MODEL

- Set up the Canon printer and open a web browser on your computer device.
- Visit **ij.start.canon** site and provide your Canon model number when asked.
- You may also choose from bottom options and hit the “**click this link**” from the display.
- Start downloading Canon drivers and software from the same **ij.start.canon** page.
- Now, double click on the software and install for your Canon product.

## COMPLETE INSTALLATION STEPS FOR IJ.START.CANON SOFTWARE

1. Visit **ij.start.canon** and download the Canon driver.
2. **Install and Select connection type** – Double-tap on file and select wireless or USB connection.
3. **Turn ON the Canon printer** – Press the button to turn on the printer.
4. **Connect WiFi** – On a wireless connection, press and hold the WiFi alarm to connect.
5. **Flashing blue and green lamps** – If you find this situation, it means the printer is connected to WiFi.
6. **Agree on the terms to install** – Read and agree to the license terms of Canon set up in order to install.
7. **Finish the Canon Printer Setup** – Tap on Complete to finish the final step.

## CANON IJ SETUP FROM CANON.COM/IJSETUP ON MAC

1. Turn on the printer, Mac, and the wifi router.
2. Go to the website **canon.com/ijsetup** mac and download the driver.
3. Just finish the setup process by following the on-screen instructions.
4. Open the 'Apple' menu on the Mac and choose the 'System and Preferences'.
5. After this go to the **"Printer and scanner"** option.
6. Go on the prompt screen and tap on the "+" sign and select the canon printer from the list of the printers.
7. Tap on the **"Add"** button.
8. Congratulations! You have successfully completed the setup process on Mac.
